

# THE VICTOR BY WINDSOR ROOF DECK

The Victor by Windsor, a luxury apartment community, is located just steps from North Station in Boston's West End neighborhood. When Windsor needed to make some improvements to the building's roof deck, they called on Davis Square Architects.

Previously an underused space on the 11th floor, the design team orchestrated a complete makeover with a new trellis, grills, fireplace and furniture. With these dazzling amenities added to the spectacular views, the roof deck has become the most sought-after hangout in this high-end, multi-family high-rise. ■
