

NORTHSTAR HYACINTH CHILDCARE

Davis Square Architects is currently working with NorthStar Learning Centers on their newest childcare facility in New Bedford, MA, NorthStar Hyacinth Childcare.

Formerly home to St. Hyacinth's Church, the site will be transformed into a brand-new childcare facility serving 135 children, including administrative office space for faculty. The project will be of supportive use to the densely populated neighborhood, and re-activates a lot that has been unused for a significant period of time. The project is also conveniently located within walking distance of public transit. ■
