

PURITAN & COMPANY RESTAURANT FUNCTION ROOM

Specializing in New England cuisine and traditions while incorporating the latest equipment and techniques, Puritan & Co. is a modern American restaurant located in an historic building in Cambridge's Inman Square neighborhood. This trendy hot spot turned to Davis Square Architects to create an expansion to their successful restaurant.

Working closely with the owner and general contractor to eliminate downtime, and also navigating a complex permitting and licensing process, the design team created a private function room that seamlessly expanded the existing dining area.

Capturing the comfy Americana theme with a color palette of vivid blues, warm woods and soft whites, the new space gives happy guests a sense that it has always been an integral part of the restaurant. ■
